DETAILED ACTION

Allowable Subject Matter

1. Claims 28 and 29 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches a toner container comprising a mouthpiece having a valve to allow a nozzle at a set portion of an image forming apparatus to enter the container body and to discharge toner from the container body when the toner container is positioned at the set portion and wherein the valve is to close the mouth when the toner container is removed from the set portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yanagisawa et al disclose other examples having air supplied to the toner container for agitating the toner.
